

I feel that the FCC should not implement any proposal that would lesson Indiana's Telephone Privacy law protections. This Telephone Privacy law has been wonderful in allowing alot more quiet time in our home. We would get approx. 8-10 calls per week and it was not appreciated. Now we may get 1 call every other week. We don't purchase anything over the phone and don't believe in working on Sunday's. Sunday calls are especially not appreciated!!!! This has been the best law to go into effect and I would not like to see it changed in any way!!! Thank you for letting us voice our opionions.
